

Payments Technology, However You Need It

Receiving timely and accurate payments remains one of the biggest challenges facing sites today. As a result, many sites are now choosing which studies they apply for based on a sponsor's payment history. **DrugDev Spark solves payment challenges for sponsors and CROs in order to ensure sites remain happy and focused on clinical trial activities.** With over 11 years' experience in global payments and \$2 billion on-time payments across 60 countries, we have unrivaled efficiency and expertise to ensure you get payments right for your sites.

Move freely between any model as your business needs evolve:

Outsourced Payments

Site payments are no easy task. Sponsors must accurately pay sites on time while providing payment explanations and history, and managing country specific regulations. DrugDev can tackle this for sponsors who wish to focus on other aspects of their trial. Our team of payments experts has over 11 years of experience and understands the best way to manage site payments to keep your sites happy.

Software as a Service (SaaS)

DrugDev's Spark technology incorporates the lessons learned from 11 years of managing payments. The software has been optimized to effortlessly manage payments with integrated payment schedules, invoice control, on-demand and in-depth reporting.

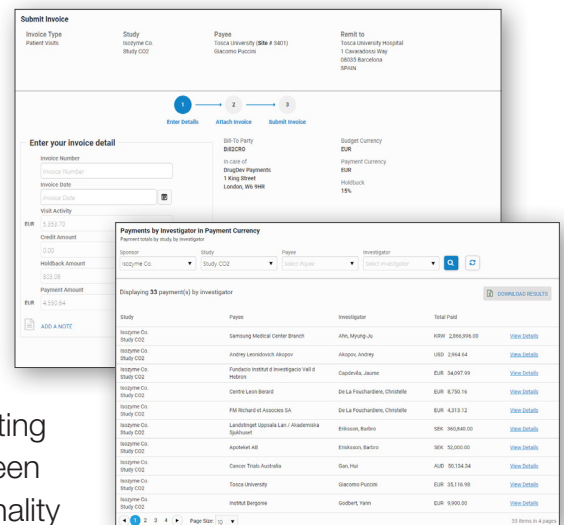

Hybrid Software and Outsource Model

The system's flexibility enables DrugDev to work the way you do - providing sponsors the ability to pick and choose what they want to handle, while we offer to cover the rest.

The only payments solution that offers...

- A centralized dashboard for all site payment activities
- Ability for sites to submit invoices and track payment progress and history
- Aggregate spend reporting and compliance
- Full transparency and detailed reporting for study teams
- Third-party system integrations
- Global VAT optimization
- Flexible financing options including just-in-time and forecasting
- Part of a unified clinical suite with seamless transition between site activation, site engagement, training, and other functionality

Dashboard: Shows individual and total payments made by country and currency at a glance.

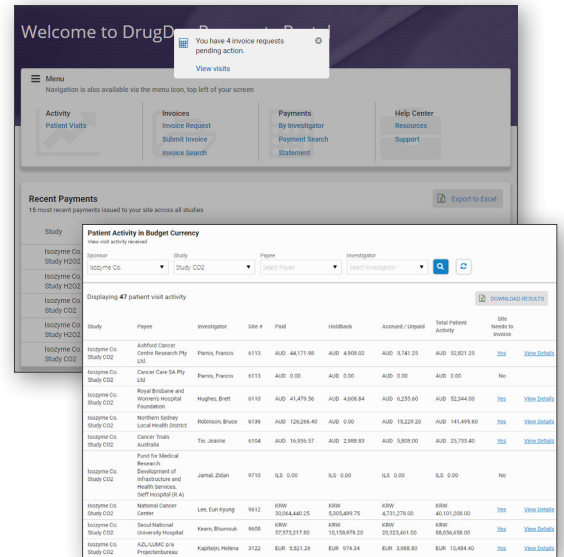

Reminders: Alerts guide sites across the globe to act on open requests to streamline turnaround time for site visit invoicing.

Subject Accrual Log: Allows sites and study teams to understand what has been paid by subject, visit, invoice, etc. with data exports for record-keeping.

Outstanding Requests: Tracks aging of open requests, allowing faster action to follow up with sites if needed.

Transparency: History of invoices processed and payments made with line-level detail.

Date Filtering: Details every payment made to every site with Excel export capabilities for sponsors' data-analytics teams.

For Sites:

- Real-time payment status
- Email notifications with direct login
- Online invoice submission
- Searchable transaction history
- Global support from DrugDev

For Sponsors:

- Payment totals by study, investigator, etc.
- Dashboard reports and snapshots
- Invoice approvals/rejections
- ProForma invoicing
- Integration with DrugDev Spark

THE MOST EXPERIENCE IN THE INDUSTRY
